INTRODUCTION

Meqstar Global Ltd is a local partner of Hammersmith training consult (HTC) UK. It provides capacity building solutions spanning Technical and Management areas to public and private sector organisation. It is our belief that an organisation is only as good as its productive workforce, and that the attainment of relevant skills and knowledge is a sine-qua-non to ultimate personal development, performance and success in the very dynamic business world. Consequently, our Open and Bespoke programmes have been developed to provide requisite knowledge to enhance optimal learning in a very informal and conducive environment. Our array of programmes which are backed by practical case studies are by high caliber and experienced resource persons. Our objective is to contribute to the advancement and transformation to a knowledge-based society through that provision of programmes of the highest caliber, which directly address the current needs and demands of both individuals and industry. We take pride in our ability to respond quickly to market needs and provide you with quality learning programmes that are dynamic, leading edge and up to date.

OPEN COURSES

Our open courses have been designed to meet your expectations and to ensure optimal learning in a very conducive environment. The delivery of the programmes by our highly experienced and knowledge resource persons will adequately equip your staff in dealing with the ever-changing challenges of the business world. Delegates will be provided with extensive course materials covering the span of training topics and will also have access to our team of professional trainers.

BESPOKE TRAINING

Meqstar Global Ltd also specializes in bespoke or Tailored (“In Company”) training. We have the capabilities to develop specialized courses for you based on specific areas directly suited to you and your organization. This enables us to cut down on costs so that the benefits are passed on to you and your organization.

PROCUREMENT SERVICES

Our services help clients optimize their performance and profitability through the delivery of efficient and value adding services to enhance our client's business goals. Our process develops a secure and responsive supply base that is capable of providing quality, delivery, cost, technologies, flexibility services to meet the current and future business need of our clients. For client's procurement needs, we have a strategic sourcing solution for business of all sizes, from the small to the highly rated ones. Our teams have worked on various projects together and you will benefit from the collective knowledge of our experience and market intelligence. Our experienced sourcing professionals work closely with clients' in-house staff to increase the efficiency of operations by using proven sourcing and purchasing strategies best practices, innovation technologies and an unsurpassed database of market intelligence to help our clients achieve the maximum level of saving possible.

CONSULTANCY SERVICES

We offer consultancy service in the following areas; Project management, Business consulting services, Management consulting, Conduct of feasibility studies, Executive e-business etc. Our consulting services focus on our clients' most critical issues and opportunities across all industries and geographies. We bring deep, functional expertise, and are known for our holistic perspective: we capture value across boundaries and between the silos of any organisation. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We approach every client's business as if it were our own. We believe a consulting firm should be more than an advisor. We put ourselves in our clients' shoes, align our incentive with their objectives and collaborate to unlock the full potential of their business.
